CONSTRUCTION DETAILS

INSERTION OF THE TUBE INTO THE FITTING

- Make sure the tube is fully inserted into the fitting.
- To insert the tube into the fitting cut the tube off square (90°), insert tube up to the fitting end stop, and pull back gently to make sure it is correctly connected.
- If there is any damage or scratches on the tube surface the tube is an oval shape, air leakage and tube release may occur. Check the tube condition carefully.
- The OD of polyurethane tube expands when pressure is applied. Reinsertion into the fitting may not always be possible. Check the OD of the tube and renew it the expansion is out of tolerance.

DISCONNECTION OF THE TUBE FROM THE FITTING

- Make sure the pressure in the system is zero before releasing the tube from the fitting.
- To release the tube, press the release sleeve towards the fitting with one hand (1) and pull the tube away from the fitting with the other hand (2).
- Always remove the section of tube previously inserted into the fitting before reinserting the tube by cutting back the tube. Always use the correct tube cutter in order to cut the tube square and free of damage.

DECLARATION OF CONFORMITY FCMs

Food Contact Materials

TIERRE GROUP S.p.a.

DECLARES

That the items related to the following product ranges:

SERIES LFR(P)

Brass CW510L push-in fittings

ARE IN COMPLIANCE WITH

To the following General Community Legislation

EC 1935/2004 regulation of the European Parliament and of the Council dated 27th October 2004 on materials and articles intended to come into contact with food and abrogating the Directives 80/590/EEC and 89/109/EEC.

Commission Regulation **EC 2023/2006** dated 22nd December 2006 on good manufacturing practice for materials and articles intended to come into contact with food.

Commission Regulation **EC 10/2011 and others after then**, on plastic materials and articles intended to come into contact with food.

Regulation **(EU) 2025/351** amending Regulation (EU) No 10/2011 on plastic materials.

To the following General National Legislation:

Art. 1, art. 3, art 4 paragraph 5, art. 6 of the Presidential Decree dated 23rd August 1982, No. 777, Implementation of the Directive (EEC) No. 76/893 and subsequent amendments, starting from the entry into force of the Legislative Decree dated 10th February 2017, No. 29, Sanctioning discipline for the violation of the provisions as listed in the CE regulations regarding materials and objects intended to come into contact with food products and food in general;

To the following Specific National Legislation:

Ministerial Decree No. 34 dated 21st March 1973, Hygienic regulations for packaging, containers, utensils intended to come into contact with food substances or substances for personal use and subsequent updates and modifications;

**DECLARATION OF CONFORMITY
D.M. 174/2004**

Regulation concerning materials and objects intended to be used in fixed systems for the collection, treatment, adduction and distribution of water for human consumption.

**TIERRE GROUP S.p.a.
DECLARES**

that the items related to the following product range

**PUSH-IN FITTINGS
LFR(P) SERIES**

items produced with the following materials
UNI EN 12164 CW510 L brass - AISI 316L Stainless Steel - AISI 302 Stainless Steel
PVDF UHM - EPDM Perox

ARE IN COMPLIANCE WITH

Legislative Decree 102 of June 25, 2025, which repeals and replaces D.M. 174 of April 6, 2004, concerning materials in contact with drinking water. This new legislative decree updates Italian legislation by transposing European Directive 2020/2184 and establishes new rules for drinking water quality, introducing stricter parameters and strengthening controls.

The conformity test has been realized by ICIM on the basis of the above.

It's responsibility of the user to check the eventual suitability of the products for the usage at the specific conditions of use. Tierre Group S.p.a. recommends to do a washing cycle of the circuit realized using the products object of this declaration before starting the system.

This declaration doesn't give any indication regarding the usability from a technical and a technological point of view. It's responsibility of the user to check the suitability of the material for the application. At the same time it's responsibility of the industrial and the commercial operators to maintain the traceability of the products supplied by Tierre Group S.p.a.

All the supporting documents relating to this declaration, including those referring to the tests realized on the products and demonstrating the conformity of the products themselves, are available to be checked by the competent authorities, when asked, at the Tierre Group S.p.a. headquarters.

This declaration is valid starting from the date below mentioned and will be replaced if some substantial changes are introduced, such as modifications in the production of materials changing the essential requirements in compliance with the conformity or modifications and updates in the legislative references mentioned in this declaration. In these cases a new audit will be required in accordance with the conformity.
